1 6 in. Gate Valve	57.61
Total	$1,057.84

SUPERINTENDENT'S REPORT

The Water Department faces the possibility of having to raise the water rents in 1961. Onr income from rents dropped over $500.00 in 1960 while our maintenance costs are rising.

The established rate for filter system swimming pools is $10.00 and, as in previous years, $25.00 for non-filtered pools.

We hope to be able to repay $500.00 to the Town in 1961. This money was used to repair Little River Dam and Roadway last winter when the thaw caused unusually high water which did considerable damage.

Respectfully submitted,
OVILA LEDOUX,
Superintendent

Health Report

New Hampshire State Department of Health

December 28, 1960

Mr. Irvan M. Johnson, Town Clerk
Carroll, N. H.

To the Citizens of the Town of Carroll:

During the year 1960, 286 visits were made in the town. These visits were as follows:

Adults	10	Pre-school	122
Chicken Pox	6	Regard Polio	6
Crippled Children's Serv.	21	Regard Triple Toxoid	1
Fungus Infections	11	Ringworm	1
Heaf Testing	2	School	18
Infants	19	School Physicals	39
Measles	1	Sight Conservation	11
Mumps	1	Tuberculosis	7
Patch Testing	2	Well Child Conference	1
Polio Clinic	1		

In the Spring, we again had another outbreak of fungus in the school, which was quickly brought under treatment, and closely followed up.

In May, a Well Child Conference was held for preschool children. We had an attendance of 15. Patch tests were administered to 13, Triple Toxoid Boosters to 3, Vaccinations to 4, and 15 physical examinations were done.

One Polio Clinic was held during the year with 47 injections administered as follows:

	First	Third	Fourth	Total
Under 5	1	1		2
20-40	1	18		18
All ages			27	27
Total	2	19	27	47

In June, the Mobile Chest X-Ray Unit visited the community. This is sponsored by the New Hampshire State Department of Health.

In October, 29 students and three teachers in the school participated in the new tuberculin testing program, The Heaf Test, which was administered by Dr. William M. Prince, Director, of the Bureau of Communicable Disease Control.

Eleven children have taken advantage of the Pediatric Clinics held in Littleton, and the Orthopedic Clinics held in Berlin.

It has been a pleasure to work with the Citizens of Carroll and at this time I would like to thank them for their cooperation, and I sincerely hope they will call on me if I can be of any service to them.

Respectfully submitted
ELEANOR D. KENNEY, R. R.
Public Health Nurse, District No. 2
N. H. State Dept. of Health

School Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Carroll qualified to vote in District Affairs:

You are hereby notified to meet at the Town Hall in said district on the fourteenth day of March, 1961 at two o'clock in the afternoon to act upon the following subjects:

1. To chose a Moderator for the ensuing year.

2. To see if the School District will vote to discontinue the Elementary School in the Carroll School District for the school year 1961-1962.

3. In the event the School District votes to discontinue the elementary school for the school year 1961-1962, to see if the School District will vote to raise and appropriate a sum of money to pay tuition for all Elementary School pupils of the Carroll School District to be assigned to outside school district or districts by the School Board.

4. To see if the School District will vote to raise and appropriate a sum of money for the transportation of elementary school pupils outside the school district attending public or private schools for the school year 1961-1962.

5. To choose a Clerk for the ensuing year

6. To choose a Treasurer for the ensuing year

7. To choose a Member of the School Board for the ensuing three years.

8. To hear the reports of Agents, Auditors, Committees, or Officers heretofore chosen, and pass any vote relating thereto.

9. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

10. To see if the School District will vote to send its secondary school pupils to Littleton High School on a contractual basis, and to authorize the School Board to negotiate the provisions of the contract with the Littleton School District and to execute the same.

11. To see if the School District will vote to raise and appropriate the sum of eight thousand five hundred ($8,500.00) to carry out the contract with Littleton High School, if the District votes to make a contract with said High School.

12. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the School Board to certify to the selectmen the balance between estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Given under our hands at said Carroll this twelfth day of January, 1961.

VIRGINIA M. MORNEAU, Chairman
BEULAH R. BEAULIEU
JOHN F. WRIGHT
Members of School Board

CARROLL SCHOOL DISTRICT

SUPPLEMENTARY SHEET

The following articles were submitted before the dead line of February 13, 1961 but after this town report was printed.

The following four articles were submitted to your school board to be included in the 1961 school warrant by a group of interested parents:

1. To see if the District will vote to sign a seven year (7) contract with the Littleton School District, to provide for our high school students to 1968. Also to raise and appropriate a sum of money, each year, adequate to meet this contract and to provide tuition for the students who attend other qualified high schools.

2. To see if the voters of the Carroll School District will vote to extend the term of the bus contract, transporting the students to Littleton, from one year to three years.

3. To see if the voters of the School District of Carroll will vote to petition the State Board of Education to redistrict the School District of Carroll from Union No. 31 to Union No. 35, which includes Littleton, where our students are now attending high school.

4. To see if the voters of the Carroll School District will vote to transport children, going to the parochial school at Littleton on the established bus route.

Since there has been interest shown in the town of Carroll in having the high school students attend the Whitefield High School, your School Board felt that the following articles should be included to give the townspeople the opportunity to vote on having the students attend the Whitefield High School:

1. To see if the School District will vote to authorize the School Board to make all necessary arrangements for the attendance of High School students at Whitefield High School.

2. To see if the School District will vote to raise and appropriate the sum of seven thousand two hundred dollars ($7200.00) to cover tuition costs to Whitefield High School for school year 1961-1962.

3. To see if the School District will vote to raise and appropriate a sum of money to pay transportation costs of high school students attending Whitefield during the school year 1961-1962.

School Board Report

To the Citizens of the Town of Carroll:

The annual report of the School Board of the School District of Carroll is duly submitted.

Because of our drastically reduced enrollment which was unforeseen, the School Board decided that large expenditures of funds during this school year were not prudent until the enrollment situation resolves itself. It was thought that although the number of pupils had decreased it was important to employ three qualified teachers as usual rather than sacrifice the pupils' education.

It was decided by the Board that the money raised to erect a fence in front of the school should be held until after the District School meeting where formal action can be taken relative to the future of the Twin Mountain Elementary School.

The complete story to date of the question regarding the transportation of parochial school children follows:

On May 18, 1960, a group of townspeople, having Mrs. Mary Monahan as leader, held a meeting with the School Board to discuss school bus transportation to the Littleton Parochial School. At that time the School Board was informed that several elementary school children were enrolled or going to enroll in said Parochial School. Permission was asked to allow these children to ride on the high school bus which goes to Littleton each day with the high scool pupils.

After careful discussion of the request the School Board sent the following letter to Mrs. Mary Monahan, a copy of which was posted in the town building:

May 23, 1960

Mrs. Mary Monahan
Twin Mountain
New Hampshire
Dear Mrs. Monahan:

At a special meeting of the Carroll School Board held May 18, 1960 the following action was voted:

> "We, the members of the Carroll School Board, feel that we cannot grant permission for transportation of elementary school pupils desiring to attend any public, private, or parochial elementary schools outside the Carroll School District."

The above decision was made after careful consideration concerning the effect such an action would have on the Educational Program of the Carroll Elementary School, as it is presently established and planned for the next school year. The Board recognizes, that since this is a matter of grave importance with far reaching consequences, the ultimate decision should rest with the citizens and taxpayers of the community. Therefore, the question of transportation of pupils to elementary schools outside the district and/or the question of voting to eliminate the Carroll Elementary School shall be placed before the townspeople at the next annual School District Meeting.

Virginia M. Morneau, Chairman
John F. Wright
Beulah Beaulieu
Members of the Carroll School Board

In June, 1960, the Superintendent of Schools visited the Commissioners of Education in Concord and presented nine (9) questions the School Board desired answered. On July 8th, a letter asking four (4) questions was sent to Mr. Paul Farnum, Deputy Commissioner of Education.

The list of questions and a copy of the letter written to Mr. Farnum follows:

1. If school is closed at Twin Mountain will the town lose School Building Aid? ($600.00)
2. Can regular school bus driver carry children to Parochial school without the consent of School Board while carrying public school pupils?
3. Can the School District pay transportation costs to Parochial and public elementary schools outside of school district?
4. If Parochial school children ride on school bus with regular public school children outside school district, is school district responsible for accidents to Parochial children?
5. Is school district responsible for transportation within the district of pupils attending a Parochial school outside the district?
6. Can School Board close elementary school without vote of the district and tuition its pupils?
7. Is school district responsible for salaries of teachers already employed if district votes to close school and tuition its pupils?
8. Has school board the right to choose its elementary school outside of school district?

9. If No. 8 is correct, would the school board have to pay Parochial school transportation if the chosen elementary school is in opposite direction?

Ju'y 8, 1960

Mr. Paul Farnum
Deputy Commissioner of Education
Concord, New Hampshire
Dear Paul:

Several other questions are being raised relative to the Carroll situation. Would you be willing to include the answers with the other questions you are now working on.

At the Carroll School District meeting it was voted to authorize the School Board to take steps necessary to find a school district that will accept Carroll high school students for the school year 1960-1961, Littleton High School preferred. Does this give the School Board the right to draw up an agreement with the Littleton School Board designating the Littleton High School as the accepted high school for the Carroll School District?

If the above is answered in the affirmative, is the Carroll School District required to pay tuition, full or in part, to any other school district if one of the Carroll School District pupils might be attending high school in some other school district?

If the Littleton High School should be designated as the Carroll High School, does the School District of Carroll have to pay transportation for high school pupils to the town of Littleton by law as the town of Carroll has no high school?

If high school pupils are transported to a designated high school outside the town, does the Carroll School District have to pay transportation of high school pupils attending high school in some other school district?

Any help which you may give us in solving the above questions will be greatly appreciated.

Sincerely yours,
Superintendent of Schools

It might be mentioned at this point that on July 25, 1960 an informal meeting was held with your School Board, Mr. Paul R. Fillion, Chief, Division of Administration, Mr. John G. Economopoulis, Director, Elementary School Services and Mr. Truell, Superintendent of Schools. This was purely a meeting to clarify in the minds of the State Officials the

existing transportation as it really was. It might be noted that during the meeting Mr. Economopoulis stated that the Twin Mountain School measured up to the State standards in all ways.

The State Officials in Concord pondered these questions during the summer months and in early September the following letter was received by Superintendent Truell:

September 2, 1960

Mr. Harold A. Truell
Superintendent of Schools
Whitefield, New Hampshire

Dear Harold:

I am pleased to be able at this time to respond to the two sets of several questions you raised with Commissioner Ritch concerning school transportation and related matters, in connection with the current scene in Carroll School District. Portions of this will confirm statements already given to you verbally. The material to follow is organized in the sequence in which your questions were presented. The first set of questions will be discussed first.

1. As long as the Carroll School District continues to operate as a school district and continues to make a principal payment to reduce long-term indebtedness on account of school construction, it seems to me that the district would continue to be eligible for state school building aid. This is a specific issue which the State Board of Education has not had occasion to consider, however, so I am not in a position to give you a formal or final answer.

2. In my judgment a school bus driver may transport at school district expense only those pupils designated by the school board as being eligible for school transportation, regardless of whether those pupils attend a public school or a non-public school. Whether or not the school bus driver may also transport additional youngsters, for whose transportation he receives payment directly from the youngsters or their parents, and not from the school district, would be determined by the terms of his contract with the school district and also by the nature of his licensing with the Public Utilities Commission.

3. A school district must pay for the transportation of elementary school pupils assigned to a public school which is more than two miles from their home, whether that school is within the district of residence or in another school district. A school district may not provide transportation at public expense for pupils attending a non-public school outside that

district, whether a public elementary school is maintained within the district or not. This statement is based upon legal advice obtained from the office of the Attorney General on this subject.

4. In the final analysis, it would seem likely that the matter of school district liability for non-public school children riding on a school bus under contract with the school district would need to be determined on the basis of a careful examination of the specific terms of the insurance coverage itself. It does not seem logical to me to think in terms of any separation, as far as responsibility for their safety is concerned, of pupils riding in a common group on a bus, on the basis of the school they attend. Perhaps more pertinent, however, is the fact that more immediate responsibility lies with the school bus operator, than with the school district, while pupils are on the bus.

5. In my judgment, in the light of the legal advice summarized in the third answer above, a school district may not provide transportation within the district for pupils attending a non-public school outside the district, if such service would require the expenditure of additional public funds. This reflects also the fact that our statutes on school transportation are written in terms of entitlement (or no entitlement) to transportation to and from school, and not transportation to and from some intermediate point.

6. It is quite possible that a school board has the power to close an elementary school and assign the pupils elsewhere on a tuition basis, without a vote of the district. This seems to us, however, to be a matter of such importance that the school board should take such action only in the light of a school district vote.

7. Assuming that the contract entered into by a district with its teachers contains only the provisions usually found in such contracts, it seems to me that the district would be liable for full payment of salaries to those teachers for the period of the contract, even if the school were closed during that period.

8. Pupils attending public elementary schools must attend the school to which they are assigned by the school board. This means that the school board may designate which neighboring school district is to be the place of attendance for elementary pupils, if no school is maintained within the district of residence. Such action would not prevent a school board from assigning one or more pupils to a different school district if travel conditions or distances were such as to make

such assignment desirable. I am enclosing a copy of a legal opinion related to this matter.

9. It appears that the ninth question in your first list has been answered by the legal opinion summarized in connection with the third question.

In a subsequent letter you raised additional questions, to which the following responses are offered:

1. Your first question, concerning the negotiation of a contract with Littleton for the education of high school pupils, seems to be phrased in terms of negotiating an exclusive contract, although that point is not entirely clear to me. We have at hand a copy of the 1959 Town Report for Carroll in which I find a notation to the effect that Article 8 in the warrant for the 1960 School District Meeting was defeated. This causes me to feel some measure of uncertainty about what constitutes the specific nature of the action taken on this matter at the 1960 school district meeting. When a district enters into an exclusive contract with another district for the education of high school pupils on a tuition basis, all pupils wishing to obtain a high school education at public expense must attend the school of the district with which the contract is made. This is such an important issue, therefore, that our position is that a school board should enter into an exclusive contract only with school district authorization to do so.

An exclusive contract is not, of course, the only answer. A school board may enter into a non-exclusive contract for tuition for high school pupils, to permit the school board to pay tuition at an approved rate above the state average tuition liability figure, without requiring all pupils to attend a particular school. There should be district authorization for this, too, but it appears resonable for a board to be able to proceed with such a non-exclusive contract even without district authorization.

2. Unless a sending district has entered into an inclusive contract with another district, that sending district is liable for the tuition of any resident pupil who attends any approved high school. The liability for such tuition is limited to the state average per pupil expenditure as computed by us for tuition purposes, or the per pupil expenditure in the receiving district, whichever is less. It can happen that, still within these limits, the sending district would be liable for a somewhat higher tuition for pupils attending other approved public high schools than would be the case for pupils attending high school in the district with which a non-exclusive

contract has been made. The same enclosed copy of an opinion obtained from the office of the Attorney General is relevant to this discussion also.

3. A school district is required by Section 7, Chapter 189, R. S. A., to provide transportation for eligible pupils attending a high school (grade 9 or above) who are not yet fourteen years of age. This is true whether the pupils attend a high school in their own district, attend elsewhere without a tuition contract being involved, or attend a particular school in another district on the basis of either an exclusive or a non-exclusive tuition contract. A school district is not required by the statutes (Chapter 189, R.S.S.) to provide transportation for pupils enrolled above grade eight who are at least fourteen years old. This is true whether the pupils attend an approved public high school in their own district or attend an approved public high school in another district. The nature of any tuition contract arrangement does not alter the scope of the district's responsibility for transportation.

4. As indicated above, there may be a few youngsters, those under fourteen years of age, who are legally entitled to transportation to high school. Beyond this, the school district may decide to provide transportation for all high school pupils who need it because of distance. In either case, there is need for taking a reasonable approach to the matter of what transportation should be provided. If the bulk of the pupils are transported to a particular school, and one or more pupils choose to attend another high school, the position usually taken is that responsibility for payment of tuition does not carry with it automatic responsibility to establish another transportation route.

I hope that the above rather extended discussion will prove helpful to you. As always, we stand ready to render any further assistance that may be needed.

Sincerely,
Paul R. Fillion, Chief
Division of Administration

As a result of the letter sent to Superintendent Truell by Mr. Paul Fillion your School Board sent the following letter to Mrs. Mary Monahan, a copy of which was posted in the town building:

September 9, 1960

Mrs. Leo Monahan
Twin Mountain
New Hampshire

Dear Mrs. Monahan:

Last May 23, 1960 the Carroll School Board wrote you a letter concerning the action taken by it in relation to transportation of children to non-public schools outside the school district. The following is an excerpt of that letter:

> "We, the members of the Carroll School Board, feel that we cannot grant permission for transportation of elementary school pupils desiring to attend any public, private, or parochial elementary schools outside the Carroll School District."

On June 5, 1960 a letter was written to the State Board of Education asking for information regarding transportation of school children to non-public schools outside the Carroll School District. Last Tuesday, September 6, 1960 we received a reply to our request. Answers to questions asked below:

Question: Can a school district pay transportation costs to non-public and public elementary schools outside of the school district?

Answer: "A school district must pay for the transportation of elementary school pupils assigned to a public school which is more than two miles from their home, whether that school is within the district of residence or in another school district. A school district may not provide transportation at public expense for pupils attending a non-public school outside that district, whether a public elementary school is maintained within the district or not."

Question: If non-public children ride on school bus with regular public school children outside the school district, is school district responsible for accidents of non-public school children?

Answer: "In the final analysis, it would seem likely that the matter of school district liability for non-public school children riding on a school bus under contract with the school district would need to be determined on the basis of a careful examination of the specific terms of the insurance coverage itself. It does not seem logical to me to think in terms of any separation, as far as responsibility for their safety is concerned, of pupils riding in a common group on a bus, on the basis of the school they attend."

The next regular school board meeting to be held at the school building on Tuesday, October 4, 1960 at 8:30 P. M.

Sincerely yours,
Virginia M. Morneau, Chairman
John F. Wright
Beulah Beaulieu

The following two letters are included here to inform you of the developments that took place at Concord during September and October.

Department of Education
State of New Hampshire

October 19, 1960

Mr. Harold A. Truell
Superintendent of Schools
Whitefield, New Hampshire

Dear Mr. Truell:

At a meeting of the State Board of Education on September 12, 1960, the Carroll transportation situation relative to non-public school children was discussed by the Board. At that time I was directed to get an opinion from the Attorney General relative to a question which had been raised by certain citizens of Carroll.

On October 10, 1960, I received a reply from the Attorney General. This opinion was shared with the State Board of Education as it met on October 17, 1960, at which time I was directed to forward a copy of Attorney General Wyman's opinion to you for your information.

Dr. John Hall of Littleton, who is a member of the State Board of Education, and through whom this question had been raised by certain parents in Carroll, was directed to forward a copy of the above-mentioned opinion to them.

I hope this information will be of service to you.

Sincerely,
Charles F. Ritch, Jr.,
Commissioner of Educaion

The State of New Hampshire
Attorney General, Concord

October 10, 1960

Dr. Charles F. Ritch, Jr.
Commissioner of Education
State House Annex
Concord, New Hampshire

Dear Commissioner Ritch:

In yours of October 3, 1960 you inquire whether or not a

school district maintaining an elementary school within its limits and providing transportation at public expense for pupils attending that public elementary school who are entitled because of distance to such transportation must provide transportation at public expense to non-public school pupils from their respective pick-up points to some central point within the district, such as the public elementary school. You state that the intention is that nonpublic school pupils so transported at public expense to such a point would then be transported at private expense from the central point to the nonpublic school outside of the district.

I reply to your question in the affirmative.

RSA 189:9 provides that pupils attending approved private schools up to the ninth grade shall be entitled to the same transportation privileges within any town or district as are provided for pupils in the public schools. We have previously ruled (on August 12, 1960) that the statute does not permit such transportation across district lines. However, pupils in this category are the children of taxpayers and are at least entitled to the transportation to the public school that applies to other children similarly situated. Where they go from there being a matter of private expnse is not a matter of State concern.

Very truly yours,
Louis C. Wyman
Attorney General

On October 31, 1960, Mr. Charles Ritch, Jr., Commissioner of Education, Mr. Paul Farnum, Deputy Commissioner, and Mr. Paul Fillian, graciously agreed to meet with your School Board at the Twin Mountain School to discuss all phases of the question regarding the transportation of Parochial School pupils. At this meeting the Commissioner suggested that your School Board obtain legal counsel. At this meeting it was also decided to hold a public meeting with your School Board, the Commissioner of Education and the public. On November 10th, the School Board retained Mr. Mack M. Mussman of Littleton as its legal counsel. On November 14th the public meeting was held with several interested townspeople. Commissioner Ritch, Jr., Mr. Fillian, Mr. Truell, Dr. Hall of Littleton, member State Board of Education, your School Board and its legal counsel, Mr. Mussman in attendance. The Commissioner addressed the gathering, urging patience and understanding. Several questions were asked and answered after his address. Then Mr. Mussman addressed the gathering and explained that it was unconstitutional

for parochial school pupils to be transported at public expense, both in and out of the Carroll School District. Many questions were asked Mr. Mussman and he answered them clarifying many points.

Since the above mentioned public meeting the following communications have transpired:

December 1, 1960

Mrs. Virginia M. Morneau,
Chairman, Carroll School Board
Twin Mountain, New Hampshire
Dear Mrs. Morneau:

The State Board of Education is interested in your problem relating to the transportation of non-public school children in your school district.

In order to learn the present status of the matter, the Board, at its November 21, 1960 meeting, requested me to obtain from you answers to the following two questions:

1. Since you received the opinion of the Attorney General under the date of October 10, 1960, are you now transporting, or do you plan to transport, the children in question?

2. Since you received the Attorney General's opinion, have you had any request from parents involved to transport the children, and if so, what disposition have you made of that request?

Please accept my thanks for your help in this matter.

Sincerely,
Charles F. Ritch, Jr.
Commissioner of Education

Mack M. Mussman, Attorney at Law
Littleton, New Hampshire
December 9, 1960

Charles F. Ritch, Jr., P.H.D.
Commissioner of Education
State House
Concord, New Hampshire
Dear Doctor Ritch:

Mrs. Virginia M. Morneau, Chairman of the Carroll School Board of Twin Mountain, New Hampshire, has requested that this office answer your letter of December 1, 1960.

In answer to Question No. 1, the School Board is not transporting children attending the Parochial School in Littleton, which is outside the school district, and it does not plan to transport the children to the said school in the future.

In answer to Question No. 2, the School Board has not received any oral or written requests from parents involved

in the transportation of children to the Parochial School in Littleton, but one parent has expressed herself to the extent that she will put her children on the bus transporting children to the Public School in Carroll, New Hampshire, regardless of law.

I trust this will answer the two questions submitted for answer in your letter.

Yours very truly,
Mack M. Mussman

December 12, 1960

Mr. Mack M. Mussman
Attorney at Law
Littleton, New Hampshire
Dear Mr. Mussman:

Thank you for your letter of December 9 in which you as counsel for the Carroll School Board have shared with me answers to the questions asked of that school board as of December 1, 1960.

You can be assured that your letter will be brought to the attention of the State Board of Education as it meets on Thursday, December 22.

Thank you again for your helpfulness.

Sincerely,
Charles F. Ritch, Jr.
Commissioner of Education

9 Capitol Street

December 28, 1960

Mack M. Mussman, Esquire
Opera Block
Littleton, New Hampshire
Dear Mr. Mussman:

Commissioner Ritch presented your letter to him of December 9, 1960 in the Carroll transportation matter to a meeting of the State Board of Education held December 22, 1960.

We take it from your letter, in the light of the previous record in this matter, that the Carroll School Board has not and does not intend to provide transportation to the private school children involved even within the school district of Carroll to the Carroll grade school building despite the ruling of the Attorney General that the applicable statutes require such transportation.

This leaves the State Board of Education no choice but to refer the whole matter to the Attorney General for such

action as he shall deem appropriate. We shall delay such action for three weeks to give the Carroll School Board an opportunity to reconsider the matter.

Very truly yours,
Franklin Hollis, Chairman

Mack M. Mussman, Attorney at Law
Littleton, New Hampshire
December 30, 1960

Franklin Hollis, Esquire
State Board of Education Chairman
Department of Education
State of New Hampshire
9 Capitol Street
Concord, New Hampshire

Dear Mr. Hollis:

Your letter of December 28, 1960, has been received and in reply I wish to state that the Carroll School Board has not and does not intend to provide transportation for parochial school children involved even within the school district of Carroll for the reason that in their opinion, it is contrary to the New Hampshire Constitution and reference is made to part 2, article 83, which states in part "that no money raised by taxation shall ever be granted or applied for the use of the school or institution of any religious sect or denomination . . . ."

This does not mean that they will refuse to provide transportation to private school children within the school district of Carroll and since RSA Chapter 189, Section 9, does not apply to these particular students, the School Board feels that it can properly decline.

Perhaps it would be best for the Attorney General to file a Bill for Declaratory Judgment in the matter and have the Court decide whether the transportation of parochial school students within and/or out of the school district at the expense of the School District and taxpayers is constitutional.

Yours very truly,
Mack M. Mussman

This is the complete record of meetings and communications pertaining to this case up to January 1, 1961.

Since the issue was discussed at the last district meeting and is bound to be discussed at the coming meeting, your Board feels that it would be advantageous for the voter to learn some of the advantages and disadvantages of signing an eight year contract with the Littleton School District.

The advantages include:

1. A definite high school will have been chosen for the pupils for the next eight years.
2. Littleton School presents a fine educational program which is constantly being improved and kept up to date.
3. The pupils have been happy attending Littleton High School and have done well scholastically.
4. Littleton School officials have cooperated well with your School Board.

The disadvantages include:

1. Tuition costs may rise above state average, but must be paid by the town. These costs will increase faster under contract especially if Littleton undertakes new school construction.
   A rental fee is included in the tuition cost to offset capital outlay costs.
2. Pupil participation in extra-curricula activities will always be difficult for Twin Mountain children.
3. Twin Mountain could not participate in any cooperative school program which might materialize during the next few years in this area.
4. The educational program will always be established by the Littleton School Board.

In conclusion your School Board wishes to thank the teachers and administrative staffs for its continued cooperation and loyalty during the past year.

A cordial invitation is extended to parents and townspeopie alike to visit the school at any time.

Respectfully submitted,

VIRGINIA M. MORNEAU, Chairman
JOHN F. WRIGHT
BEULAH BEAULIEU
Carroll School Board

Superintendent's Report

To the School Board of the Town of Carroll:

My eighth annual report as Superintendent of Schools in the Town of Carroll is submitted herewith.

Supervisory Union No. 31

The Supervisory Union No. 31 is composed of the towns of Carroll, Lancaster, and Whitefield. The duties of the Union, as a whole, are to select the superintendent of schools, special teachers, supervisors, and the Union secretary. The school nurse is engaged separately by the individual towns. The superintendent's salary for the school year 1959-1960 was apportioned as follows: Carroll 5.4%, Lancaster 29.9%, Whitefield 16.2%, and the State share 48.5%. The salary of the Helping Teacher, secretary, and office expenses of the Union for the school year 1959-1960 were apportioned as follows: Carroll 10.5%, Lancaster 58%, and Whitefield 31.5%. These percentages are based on two factors having equal weight as follows: (1) Average Daily Membership of District, and (2) District Valuation (adjusted). The following chart might be on interest to show you how percentages are derived:

Equalized Valuations

Carroll	$2,731,013.00
Lancaster	9,157,606.00
Whitefield	5,562,184.00
	$17,450,803.00

Average Daily Membership of Districts

	Elem.	High	Total
Carroll	48.8	14.2	63.0
Lancaster	578.4	215.8	794.2
Whitefield	276.7	114.9	391.6
	903.9	344.9	1,248.8

District Percentages of Costs

	Valuation %	A.D.M. %	Average %
Carroll	16	5	10.5
Lancaster	52	64	58
Whitefield	32	31	31.5
	100%	100%	100.0%

The basis for the apportionment shall be one-half on the average membership for the previous school year and one-half on the last adjusted valuation of the District as determined by the State Tax Commission every odd numbered year.

During the school year 1959-1960 Supervisory Union No. 31 did not have a helping teacher as it was impossible to find a qualified applicant to replace Miss Blanche Witherell whose resignation became effective June 30, 1959, due to illness. Last summer we were fortunate in obtaining Miss Catherine L. Noonan of Manchester, New Hampshire, as Helping Teacher in Supervisory Union No. 31.

Miss Noonan received her Bachelor of Education degree from Keene Teachers College and Masters degree in the field of education from Teachers College, Columbia University.

Miss Noonan taught school in Pembroke, New Hampshire, and Greenwich, Connecticut. She has recently returned from France and Turkey, where she taught for a period of three years in schools operated for children of United States Air Force personnel.

Miss Noonan comes to Supervisory Union No. 31 with experience in teaching both the non-talented and talented pupil. Her teaching experience in the States coupled with that in France and Turkey gives her a broad knowledge of modern educational methods and procedures used in the present day progressive system.

School Personnel

Miss Lucy L. Bond was employed to teach grades I and II; Mrs. Eileen Worsley, Grades III-V; and Mrs. Mary Young, Grades VI-VIII and Principal. Mrs. Lucille Dorr is teaching music until a regular music supervisor can be found.

Enrollment

The following census table will show, to some degree, what the elementary attendance for the Twin Mountain School will be for the next five years in the first grade. Whereas, we may expect a more or less constant enrollment in our primary grades, we must be cognizant of the fact that the high school enrollment varies constantly. However, during the past several years more students have been attending high school. This is an excellent trend as a high school education today is as important as an elementary education was twenty or thirty years ago. Practically no responsible position of any kind can be obtained today without at least twelve years of schooling.

Anticipated Future Enrollment in Grade I
According to Census Reports
Five Year Summary

Anticipated Enrollment	Year Census was taken (September)				
Year	1956	1957	1958	1959	1960
1960	16	16	16	16	
1961	5	8	10	8	5
1962	2*	4	5	5	3
1963		5*	4	6	4
1964			4*	6	6
1965				7*	8
1966					6*

* This figure includes only children born before September 1 of that calendar year as the census is taken at that time.

Enrollment

According to the census table presented above, it appears that the Carroll School District will have approximately five pupils enroll in Grade I as of September 1, 1961, whereas, only nine enrolled in Grade I as of September 1, 1960. A further study shows that the enrollment in Grade I for future years remains approximately the same as in the past. Of course, this can change rapidly according to migration of families. At the present time there are eleven pupils enrolled in Grades I-II; eleven pupils enrolled in Grades III-V, and thirteen pupils enrolled in Grades VI-VIII. During the school year 1961-1962 according to all figures available, there will be fourteen pupils enrolled in Grades I-II, thirteen pupils enrolled in Grades III-V, and ten pupils enrolled in Grades VI-VIII, making an anticipated enrollment of thirty-seven pupils in Grades I-VIII for the school year 1961-1962 against a present enrollment of thirty-five pupils for the school year 1960-1961. From present information it would appear that the enrollment in Grades I-VIII for the school year 1961-1962 will be approximately the same as during the school year 1960-1961.

High School

Since the Carroll School District voted to tuition all students attending Grades IX-XII at a special School District meeting held June 17, 1958, the majority of High School students have attended the Littleton High School. At the beginning of the present school year there are nineteen students attending Littleton High School, and two students attending the Lincoln High School. The tuition rate to be paid at these schools for the school year 1960-1961 is as follows: Littleton

$380.00 per pupil, and Lincoln $416.47 per pupil. For the school year 1961-1962 the anticipated tuition rate is as follows: Littleton $425.00 per pupil, an increase of $45.00 per pupil over the tuition rate for the present school year, and the Lincoln tuition rate has not been established for the school year 1961-1962 at the time of this writing. However, next year's tuition rate at Lincoln will probably be over $425.00 based on previous high school tuition increases.

Insurance

Your School Board, in conjunction with the Lancaster and Whitefield School Boards, once again offered to all pupils in their towns the opportunity of participating in a Special School Child Accident Policy for $1.50 per pupil. This year it was possible for a student to obtain additional year-around coverage at a cost of $10.00 per year.

This is the eighth year that the pupils attending the Carroll school have had this opportunity. Previous to this time the expense of an accident was borne directly by the parent. This policy became effective September 15, 1960 and will continue until September 15, 1961. Twenty-eight out of thirty-seven pupils and teachers took advantage of this opportunity. This shows that approximately eighty percent of the entire student body participated in this project.

State Wards, Handicapped and Foster Children

By law handicapped children, who are unable to attend school, have the privilege of being taught at home for a period of not less than two hours per week. It is the responsibility of the school district to pay the tuition of its foster children and State wards to the school district in which they are residing. For the school year 1961-1962 the tuition for foster children and State wards will be at the rate of $265.00 per elementary pupil and $436.00 per high school student. One cannot tell how much the expense for this item might be. There could be a greater demand for this service than we now anticipate. Referring to the budget of 1961-1962, it would be noted that the sum of $300.00 has been requested for this purpose.

If you have a child who is handicapped and cannot attend school, feel free to contact the office of the Superintendent of Schools as he may be in a position to give assistance.

School Milk Program

At the present time the Milk Program, which was begun during the school year 1957-1958, is still being continued. Pupils are permitted to purchase milk in one-half pint bottles at a cost of three cents each. As the cost of milk is six cents

per bottle, the Federal Government pays the other three cents. This program permits all pupils to enjoy the opportunity of purchasing milk at a very reasonable cost. During the school year 1959-1960, there were 6,881 bottles of milk purchased by the pupils at the Twin Mountain School. It is hoped that all pupils will participate in this program.

National Defense Education Act

Congress passed the National Defense Education Act to become effective July 1, 1958, giving aid to all educational institutions in the fields of science, foreign languages, and mathematics. As many legal questions had to be answered, it was impossible for the New Hampshire schools to receive any aid until the school year 1959-1960. At that time, the allotment for the Carroll Public School was $89.76 for the school year 1958-1959 and $95.37 for the school year 1959-1960, making a total of $185.13 for these two years.

As the State Department of Education feels that the schools should offer education television programs to its pupils, it has approved the purchase of television sets for this purpose. During this present school year Twin Mountain School has purchased a television set for the school at a cost of $410.24, completely installed with an antenna. The State Department reimbursed the school district $205.12 toward this project. The field of educational programs will continue to grow during the years to come. At the present time about fifty percent of the schools in the State have television.

Repairs

This year only those repairs were made which were necessary as follows:

1. New coal hopper was installed in the furnace room.
2. The front hallway and basements in the main building were painted
3. The remaining classroom floors were tiled.
4. The rear exit doors in all classrooms were changed to open outwardly and canopies were constructed over the entrances. This was required for fire safety.
5. Minor repairs were made when necessary.

Special Tuition and Transportation

As the Lou Burbank Grant is not a part of the Town of Carroll, all pupils living within this area are considered non-resident and must pay tuition and transportation wherever they attend school. The tuition for each child is paid directly to the school involved by the State Board of Education. This year the Carroll School District has received thirty dollars from the State to cover the tuition of Joyce Nelson for a short time during the Fall Term.

The transportation for these children is paid by the Carroll School District. The Carroll School District submits a bill to the State Board of Education for this transportation and is reimbursed accordingly. No money, as yet, has been received from the State for transportation this year. However, such reimbursement is forthcoming.

May we take this opportunity to express our appreciation to the Twin Mountain Parent-Teacher Association for their continued cooperation and help in promoting special activities at the Twin Mountain School. The purpose of this organization is to bring the home and the school in a closer relationship.

Up to the present writing your School Board has been unable to obtain a regular School Nurse for the school year 1960-1961. May we apress our appreciation to Dr. Jorge A. deVillafane, School Physician, for his cooperation and service given during this past year.

May we express our sincere appreciation to the members of the Twin Mountain School Faculty for the fine cooperative spirit which has been demonstrated throughout the school year toward the continued improvement of the school program for the betterment of the pupils. They are ever ready to give help and assistance to pupils and parents alike when ever such assistance is requested. They are continually supervising the welfare of all pupils attending school.

Our thanks also go to Mr. Edward Jordan, School Custodian, for the excellent work which he is doing. He has been extremely cooperative at all times. A clean, wholesome school building is greatly appreciated by teachers and pupils alike.

Our thanks go to Mr. Michael Perry and Mr. Wellington Boynton, school bus drivers, for their fine work and interest in getting the bus pupils to school safely.

The cooperation of the school personnel, including the School Board, makes for better public relations as well as increasing the efficiency of the school staff. The Carroll School Board endeavors to give to the citizens of the town of Carroll the best educational opportunities possible for its children. Our sincere appreciation goes to all of its members for maintaining such a fine atmosphere in which to work.

We suggest to the citizens of the town that they make an effort to visit the Carroll school as often as possible.

Respectfully submitted,

HAROLD A. TRUELL,
Superintendent of Schools

Helping Teacher's Report

Mr. Harold A. Truell
Superintendent of Schools
Twin Mountain, New Hampshire

Dear Mr. Truell:

It is with pleasure that I submit this report to you on the work that is being carried on in the Twin Mountain School.

Time schedules were worked out carefully to allow a balanced amount of time in all subject areas and grades.

The pupils receive a great deal of individual attention in reading and arithmetic. Various devices have been made and used by the teachers to help the pupils in their learning.

Particular emphasis has been put upon handwriting. The pupils have daily lessons and practice work in penmanship.

Twin Mountain teachers have participated in meetings to develop better programs in science and social studies. In both subject areas we are planning unit work which gives all pupils the opportunity to participate and grow in knowledge and skills to the best of their capabilities.

Parent-teacher conferences are carried out regularly, enabling parents and teachers to better understand and help the pupils with their problems. Parents are welcome to visit their children's classes at any time.

Sincere thanks and appreciation to the people whose combined efforts serve to make the Twin Mountain Elementary School an asset to the community.

Respectfully submitted,

CATHERINE L. NOONAN,
Helping Teacher

Principal's Report

Carroll, New Hampshire
January 10, 1961

Mr. Harold A. Truell
Superintendent of Schools
Twin Mountain, New Hampshire

Dear Mr. Truell:

I herewith submit to you the annual report of the Twin Mountain School.

When School opened in September, Mrs. Eileen Worsley returned to teach Grades 3, 4 and 5. Mrs. Mary Young was assigned Grades 6. 7 and 8. Mrs. Lucy Bond, of Whitefield and a graduate of Plymouth Teachers College, was engaged to teach Grades 1 and 2. Mrs. Lucille Dorr, also of Whitefield, was appointed to take charge of the music program for the School.

The staff and students were pleased to know that Miss Catherine Noonan had been appointed as Helping Teacher for the Union. Because of her extensive teaching and supervising experience, she has proved to be of invaluable help to us.

Many workshops have been conducted where discussion of subject matter has been a major feature. These workshops have been most helpful in unifying the teaching techniques throughout the Union. At the most recent workshop, Mr. John Economopoulas, Director of Elementary School Services, discussed the Language Arts Program.

Besides the In-Service Training Meetings held in the surrounding towns the teachers have been participating in various extension courses offered by the University of New Hampshire and Plymouth Teachers College. A course in Advanced Mathematics is nearing completion. The purpose of these courses is to make the teachers conscious of the changes going on in the field of mathematics today and to equip them to be ready to teach the newer methods.

The Reading Program is continuing to grow, and the children are reading well. Many new Social Reading books have been added to enhance our Program. We are also very grateful to have the facilities of the State Bookmobile made available to us. Several books and magazines have also been donated to the School.

Mr. George Cunningham, Head of the Mathematics Department of the State of New Hampshire, visited our School and conducted a very interesting discussion on the newer methods in mathematics. Several new mathematics texts have been added to supplement our Program.

Special group projects have been conducted by each grade. The Primary Room had a special Indian Project in the fall, and all members of the School contributed to its success. The students have prepared some very interesting bulletin boards, and at Christmas time made gifts for their parents. There have been many worthwhile science experiments conducted, and even the Elementary Room has made use of the science laboratory.

The Halloween Party was again a highlight of the year. The costumes were most original. Square dances have been conducted in the gymnasium during activity periods. The teachers and students were most cooperative in working together on the Christmas Program. Each child participated in some phase of the program. Bowling was enjoyed by the students in the fall, and weekly trips were made to Lancaster.Softball was enjoyed in the fall, and volleyball was played in the gymnasium in the inclement weather. Basketball practices are now being held. The Ski Program at Cannon Mountain started after Christmas. We have many new skiers this year. Our lessons are held each Thursday afternoon, and Mr. Bouchard of Bethlehem is furnishing the bus transportation provided for by the School Board and the Parent-Teachers' Association. Those who do not participate in the Ski Program have an organized activity in the gymnasium.

Interest continues in stamp collecting. Through the very successful magazine campaign the students were able to purchase beautiful stamp albums. Another added feature this year is the newly-formed coin club.

The Parent-Teachers' Association is to be congratulated and thanked for its very generous support and interest. They raised money by selling Christmas cards, an annual project, and by raffling a basket of food at Thanksgiving. They plan to raffle another such basket at Easter time.

Our appreciation is extended to Mr. Raymond Monahan for donating his time in building a ski rack at the school for use by the pupils.

The students in the Primary Room wish to thank Mr. H. B. Barron for his candy and ice cream given at Christmas time. Mr. Barron does this each year in memory of his wife.

In behalf of the students and teachers, I wish to thank you, the townspeople and parents, the School Board, Miss Noonan, Mrs. Smith, Miss Kenney, Mrs. Dorr, Mr. Jordan and the Parent-Teachers' Association for the assistance and support they have given us.

Again, may we extend an invitation to you to visit the school.

Respectfully submitted,

MARY R. YOUNG,
Principal
